Certificate
SEP 09 2004
of Correction

September 3, 2004

Sir:

The undersigned requests that a Certificated of Correction be issued for the above-identified patent as indicated on either of the attached forms PTO-1050. The need for the correction arises out of PTO error, as explained in the following:

Applicants submitted to the PTO on January 30, 2002 the application from which the present patent matured. The application originally included seventeen (17) drawing sheets, one of the sheets depicting a Fig. 13. Please note the accompanying copy the date-stamped postcard confirming the filing of 17 drawing sheets. On December 5, 2003, applicant filed an additional drawing sheet, causing the total number of drawing sheet to become eighteen (18). However, as obvious from cursory review of the issued patent, only 17 sheets are present. Specifically, Fig. 13 is missing.

To expedite processing of the Request for a Certificate of Correction, application includes completed forms PTO/SB/44. Applicant provides two versions of the correction. In the first version, the original Fig. 13 is reduced to fit within the box provided in the approved form for the correction. In the second version, the box of the approved form contains a reference to an attachment, and the attachment

(included) is a copy of Fig. 13. The undersigned consents to whichever of the two versions that the PTO decides to use in granting the request.

Because the need for the correction arises out of PTO error, no fee is believed due with the present submission. However, if a fee is in fact required, please charge our Deposit Account No. 50-2866.

Respectfully submitted,
